Advertising LED display

Your advertising LED sign has unlimited potential.

Market your Product. Whatever you are selling, a LED display can showcase your product like no other billboard. From dynamic video to still images and animations, a LED screen will transform your sign into a virtual billboard.

Advertise your Specials. No marketing campaign is complete without effective outdoor advertising. Your promotions can run 24 hours a day at a minimal cost to you. Your promotional message reaches consumers that can act instantly upon receiving the message. Electronic outdoor advertising is one of the most effective marketing mediums today.

Provide Information. Hours of operation, phone numbers, websites; if you want to get information out into the world, put it on your LED display. Messages can be scheduled up to a year in advance, and can easily be managed and displayed.

Update in Real-Time. Changing letters on a marquee sign can be time consuming and resulting in a sign that isn't always up to date. Our LED signs include easy-to-use software, allowing you to frequently change information on prices, availability or any other info valuable to your customers.

Stand out from the Competition. A LED display will make your business a landmark, and will help you stand out from traditional competing signs. You will also enhance your corporate image and experience the benefits of a complete solution for visualization.

Studio Berar je ovlašćen zastupnik renomiranih svetskih proizvođača profesionalne audio i rasvetne tehnike, video projekcione i LED opreme, sistema najrazličitijih binskih konstrukcija i trussing sistema kao i konzumne HiFi audio opreme.
